Native

#### English

C1, 800/980 Tepitech

### INTERESTS

Football • Video games •  
Memecoins

### PROFILE

Junior Web3 Developer with experience in building dApps and smart contracts using Rust, and Solidity. Skilled in both front-end and back-end development, I'm seeking new opportunities for Fixed-term, Full-time, or Freelance roles. Available to start immediately and eager to contribute to innovative Web3 projects.

### PROFESSIONAL EXPERIENCE

#### Full-stack developer, Egis

2024 March – 2024 August | Lyon, France

End of study internship

Creation of an interoperable web app for digital twins based on the iTwin technology from Bentley Systems

#### Front-end developer, Fairme

2023 October – 2023 November | Full-remote

Freelance mission

Re-design of a platform dedicated to linking customers to their physical solution

#### IOS developer, MyFit Solution

2022 April – 2022 August | Lyon, France

3rd year internship

Research into improving the use of ARKit in Swift

Development of a new UX on an interface for scanning 3D objects in space

### PROJECTS

#### DeProp, Solana dApp

2024 September – present

Real estate dApp on Solana where properties are represented as NFTs. Smart contracts automate buying, selling, and renting, with rent payments and ownership transfers handled via blockchain using cryptocurrencies.

#### WhaleMusic

2022 January – 2024 February

Community platform for investing in independent artists based on blockchain technology

#### DJCosmo, Web site

2023 July – 2023 August

Lyrics generator website based on ChatGPT technology

### COURSES

#### Solana developer Bootcamp, Solana

2024 October

18h video from the official Solana team

13 projects in order to go through a lot of different subjects

Huge improvement of my Solana Rust Programs and Solana dApp skills

### EDUCATION

#### Epitech, Programme Grands Ecoles

2019 October – 2024 August | Lyon, France

5-year project-based general IT development course

#### University of Zagreb, Faculty of Organization and Informatics

2022 October – 2023 January | Varaždin, Croatia

1 academic year abroad as part of my 4th year of study

### CERTIFICATES

**Information Technology Expert Diploma - 2024** — Epitech •

**Bachelor - 2022** — Epitech • **Bac S-SVT - 2019** — Spécialité ISN
